***Allowable Subject Matter***

1. Claim 1, 3-7 allowed. Withdrawn claim 7 directed to the method has been rejoined and allowed.
2. The following is an examiner's statement of reasons for allowance:
  - a. The office action of 12/28/2009 indicated that claim 2 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant amended the claims as indicated in the response of 3/25/2010.
  - b. The 35 USC 112 1<sup>st</sup> paragraph rejection over claims 1-6 is withdrawn. While the specification does not explicitly teach the negative limitations that were incorporated into claim 1 in the amendment of 10/4/2007. Implicit support for the negative limitation is found in the examples described in the specification as well as the method claim 7. Additionally, the incorporation of claim 2 which recites that the "microfine fibers of microfine fiber bundle (A) partially stick to each other such that the elastic microfine fibers in the microfine fiber bundle (A) laterally stick together while keeping their original fibrous shape" further supports that the microfine fibers in bundle (A) do not entangle, blend and mix with the microfine fibers of bundle (B) when the nonwoven fabric is entangled. Therefore the microfine fibers of bundle (A) are produced without any non-elastic fibers and remain stuck together as bundles in the nonwoven fabric.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
